## FAQs

### Why do I have to login twice?

One account provides access to the community collection at your library; the other account allows you to view the magazines you check out.

### I have selected a title that says "Download Reader 4 to Read." What does this mean?

Some publishers only allow their magazines to be read via download and not via the online reader. These titles require a user to download the Zinio Reader 4 software app to their PC, Mac or mobile device in order to read the magazine. Clicking on the image of the magazine initiates the download process.

If you already have the Zinio Reader 4 installed on your PC/Mac or mobile device, you just need to login to your Reader 4 app to read the magazine (you will not be able to read the magazine in your Zinio.com "Reading List").

### Can I bookmark pages or change chapters or font size?

The Zinio Reader has many features including zoom, sharing articles, viewing the contents and pages in different formats.

If you are viewing the magazine with the Internet enabled, then all hyperlinks added in the text of the magazine are live (you can click on the link and it will take you to the site).

### Can I download titles directly from the Zinio Reader?

No, the Zinio Reader is only for reading the magazines you have previously checked out via the Zinio website.

The Zinio Reader enables you to read the magazines off-line, once you have downloaded them to the reader with an Internet connection.
